- Accessories – scallop edge punch, paper snips, stampin' sponge, dimensionals, stamp-a-ma-jig
- Tip – Because you are using so many different colors on the heart, huff on the heart stamp every so often while marking so the ink doesn't dry on the stamp while you continue to marker it.
- Tip #2 – For the small flowers that are stamped on the strip of Vanilla, I marked those up, stamped once, huffed on the stamp, stamped again (this is called stamping off), huffed a second time and stamped a third time. This gives many different shades of the same colors and adds to the aged Victorian feel of this card.
